What is The Helpdesk of New Orleans?

The Helpdesk of New Orleans is a company that is dedicated to providing premier computer support for your business. We have the solutions for today's computer problems and the vision to prepare you for tomorrow. We are dedicated to a high level of availability and excellent service. Our services include computer and network support, server administration, and consulting on general computer issues. We are locally owned and operated and we are committed to rebuilding New Orleans. Contact us to see what we can do for your business.

Why choose The Helpdesk of New Orleans?

Cost - Full time computer personel can cost thousands of dollars per month and require additional company resources. The Helpdesk of New Orleans can provide the IT solutions you need at a fraction of that cost with no strain on company resources.

Experience - With 24 years of combined experience supporting businesses professionally, you know that the Helpdesk of New Orleans has the skillset that your business requires.

Vision - A good technical resource isn't just for when you have a problem. The Helpdesk can provide vision and direction for your company. Insight to help you avoid the pitfalls, run your operation smoothly and get the best value on your IT investment. Don't allow computer questions to consume your time and resources.

Availability - Businesses today can run completely on computers. When computers are down, business is down and the money flow is only one way - out. When you choose the Helpdesk, you get high availability and a short response time.

Local - We are owned and operated by New Orleans area natives. Member of the Louisiana Technology Council.
